So come the storms of winter
And then the birds of spring again;
I do not fear the time.
Who knows how my love grows?
Who knows where time goes?

INTRAMURALS

Finding myself in a world untouched,
I felt the need to wander.
probing . . . I assumed a million dimensions.
I looked for myself in the faces of others
while they looked back at me. But
now the ache of challenge leaves me
still dependent, but wanting escape.
I am no longer one but have learned
the joy of others . . .

Thus it was

I am being driven forward
into an unknown land.

The pass grows steeper,
the air colder and sharper.

A wind from my unknown
goal stirs the strings
of expectation.

Still the question

Shall I ever get there?

There where life resounds
a clear pure note
in the silence.

students' senate - students' choice

Self-redefinition and reorganization were the standard format for discussion during their meetings, often disturbed by contradictions and trivialities. They began the year with an unbelievable effort to put academic endeavors before social events.

The highlight of the year was giving themselves the distinction of having a say in administrative affairs and also the hiring and firing of professors.

hermits

during the past three years, the hermits have progressed to an active organization within the park college community. academic achievement is, of course the primary goal of the hermits. this we feel, is as it should be. but the college student does not live for academics alone. hence we encourage members to seek offices on the campus.

tau kappa

wallflowers

the wallflowers are active on the park campus. the members serve in a variety of capacities, from student council to residence assistants. we are an active member of the inter-club council, and contribute to every aspect of campus life.
